Subject: FW: Appointment Upcoming NPIC Webinar 2PM Eastern June 24: Disinfectant Safety Registration Required

Hi Suzanne, Doug, and Brad:

In follow-up to our training discussion at mid-year, I've been informed that attendance of this webinar can be used to satisfy the statute specific training requirement for federally credentialed inspectors. If you're still looking for a FIFRA specific training for FY20 for any of your federally credentialed inspectors, this webinar may be a good option.

Thanks!

Claudia Niess
Enforcement Officer
Pesticides & Toxics Compliance Section

The following NPIC webinar has been just announced. Disinfectant Safety from NPIC. This one will probably fill up fast, so register early. Date is June 24 starting at 2 PM Eastern.

Link is further below.

In this webinar the National Pesticide Information Center (NPIC) will address common misconceptions and questions about disinfectant safety. We will also tour EPA's online tool for products effective against COVID-19.

Topics include:

- Differences between cleaners, sanitizers, and disinfectants
- Why "contact time" is important for a disinfectant to work
- Understanding EPA's List N for disinfectants against the COVID-19 virus
- Precautions for disinfectants and wipes

There will be time for questions after the presentation and we will post the webinar recording to the NPIC website soon after. Webinar attendance is limited.
